

Booth details

Booth equipment

Each linear booth (6' x 8', 10' x 10', 10' x 20', etc.) will be set with 8' high black back drape and 3' high black side drape. Booths 300 sqft or less will receive a booth identification sign. Booths larger than 300 sqft may receive a booth identification sign upon request.

NYCC follows the cubic content rule, which allows exhibitors to make maximum use of their booth space. Under the cubic content rule, exhibitors may build up to the front of their booths and up to the maximum allowable height according to booth types as indicated below. However, anything above the provided drape heights must be finished, neutral and devoid of copy on any wall adjacent to another exhibitor. The maximum height limits will be strictly enforced. No height variance will be granted prior to or onsite at the show. Please plan your booth display and sign structures accordingly. Maximum allowable height is also directly affected by the ceiling height of your booth area.

Hanging signs as well must comply with the height limitation guidelines listed below. This includes all hanging or suspended material such as banners and balloons (where permitted), etc. The top of the signs (or other material) may not exceed the height limitation specific to your type of booth. Booths which qualify to suspend "hanging signs" are only Island, Peninsula or Walk-Through booths of 400 sqft or larger. Hanging signs are not permitted in linear booths. It is much more cost effective to floor mount signage with a linear booth height limit of 12'.

The maximum height of a display booth at a back wall, including any form of lighting system signage or header shall be:

Linear Booth maximum height=12'

Bounded by 1 or 2 aisles. Hanging signs are not permitted in linear booths. It is much more cost effective to floor mount signage with a linear booth height of 12'. Note: side drape provided is 3' high and the back drape provided is 8' high.

Peninsula Booth maximum height limit=20'

Bounded by 3 aisles. Exhibit booths must also be at least 20' deep and 20' wide to meet Show Management's requirements for hanging signs. Hanging signs in peninsula booths may reach a height limit of 20' to top of the sign. Two-sided signs must be hung 5' from the back wall and the side facing rear of the booth must be clear of copy, logos or other graphics so as not to be an eyesore to neighboring exhibitors. Note: the back drape is 8' high.

Island Booth maximum height limit=25'

Island Booth - Bounded by 4 aisles. Booths must also be 20' deep and 20' wide to meet Show Management's requirements for hanging signs. Hanging signs in island booths may reach a height limit of 25' to top of the sign.

Public Space Booth maximum height limit=17'

Booths in Public Space - Located in Crystal Palace, Inner Roadway, North Concourse and South Concourse of the Javits center.

Exhibit hall carpet

The exhibit area is not carpeted. The aisles will be carpeted in black.

New York Comic Con operates on a Targeted Freight Move-In System. Please refer to the color-coded target floorplan for your specific target date & time for move-in. Exhibitors cannot move-in/set-up before their allotted time whether freight is shipping in, you are hand carrying or participating in the Lend-A-Hand Program. You do not have the begin construction/set-up of your booth on your target date/time. Any shipped items should be at the convention center on that date and time.

Your installation cannot begin until your freight is delivered and any utilities you need have been installed, so be certain to order these in advance of move-in. Keep in mind, your target date & time applies to when your shipment(s) must be received by, it does not mean you must begin to set-up your booth at that time.

It is highly recommended that you ship your freight in advance to the warehouse, as warehouse freight is delivered to the show floor first and is automatically "on target". Showsite shipments are unloaded on a first-come-first-serve basis. Please do not schedule any labor until the end of your target window. For example, if your target window is 10:00 AM - 1:00 PM, it is best to request your labor report to your booth no earlier than 1:00 PM.
